Fictional Entities (Corporate State issues Birth Certificate)

This is how you are created as a public trust.

The corporate state government is the Grantor

The state agency you deal with is the Beneficiary

You (your fictional entity) are the Trustee

One of the keys to understanding this is: "He who creates, controls".

Are you a man/woman, or are you a fictional entity?

Do you have rights and responsibilities, or benefits and privileges?

Are you one of the people, or a 14th amendment citizen?
